

# RAUF MAHARRAMOV

Senior Software Engineer | Frontend Architecture | AI Commerce | React | TypeScript | Node.js

Email: rauf.maharamov@gmail.com | Phone: +1 (929) 255-9388 | LinkedIn: linkedin.com/in/rauf-maharamov

Portfolio: rauf-maharamov-portfolio.vercel.app

## PROFESSIONAL SUMMARY

Data-driven Senior Software Engineer with 6+ years of experience delivering enterprise-scale web platforms for Fortune 500 organizations including Lowe's, Anywhere Real Estate, Macy's, and Toyota Financial Services. Specialized in React, TypeScript, Node.js, microfrontend architecture, performance engineering, and AI-powered commerce experiences serving millions of customers.

Proven track record of driving high-impact revenue metrics (+22.2% conversion rate lift, -76.6% cart abandonment) and engineering AI observability systems (Elasticsearch, Grafana, Adobe Analytics) to analyze customer behavior, mitigate live-agent handoffs, and optimize conversational checkout flows. Recognized for delivering scalable engineering solutions that accelerate product delivery and enable data-driven product decisions across cross-functional engineering teams.

## CAREER HIGHLIGHTS

- Conversion & Revenue Growth:** Delivered a **+22.2% increase** in subscription conversion while reducing cart abandonment by **76.6%** through microfrontend isolation and user experience optimizations.
- Performance Engineering:** Reduced checkout cold-start page load times by **60%** through advanced bundle optimization, dynamic imports, code splitting, and deferred SDK loading.
- AI Commerce & Observability:** Co-engineered Lowe's next-generation AI Purchase Agent (Mylow) and built custom Grafana dashboards and Elasticsearch queries to analyze order failures and reduce unnecessary live-agent handoffs.
- Enterprise Architecture:** Architected reusable microfrontends using Webpack Module Federation and Backend-for-Frontend (BFF) layers supporting large-scale checkout, account management, and subscription products.
- SEO & Core Web Vitals Automation:** Built automated Lighthouse performance monitoring integrated directly into CI/CD pipelines across 4 enterprise real estate brands.

## CORE TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), TypeScript, Node.js, Python
- Frontend Engineering:** React, Next.js, Vue.js, Nuxt.js, React Native, Redux (Saga/Thunk), HTML5, CSS3, Tailwind CSS, Styled Components
- Architecture & Design:** Microfrontends, Webpack Module Federation, Server-Side Rendering (SSR), BFF Architecture, Design Systems, Component Libraries
- Backend & APIs:** Node.js, Express, Hapi, REST APIs, GraphQL, JWT Authentication, Joi Validation
- Observability & Analytics:** Grafana, Prometheus, Elasticsearch, Adobe Analytics, Google Lighthouse, Core Web Vitals, Production Telemetry
- AI & Intelligent Systems:** Conversational Commerce, Agentic AI Workflows, Failure Analysis, OpenAI APIs, Claude, Gemini, Tool Integration
- Testing & Quality Assurance:** Jest, React Testing Library, Playwright, Cypress, Selenium, Cucumber, WebdriverIO, SonarQube
- Cloud, DevOps & Tooling:** Docker, GCP, AWS, GitLab CI/CD, Spinnaker, Git, GoAlert, Pharos

## PROFESSIONAL EXPERIENCE

Lowe's Companies, Inc. | Remote

Senior Software Engineer

June 2022 – Present

- **Co-Engineered Next-Gen AI Purchase Agent (Mylow):** Contributed to the architectural transition from a rigid deterministic checkout to an AI-orchestrated, conversational commerce agent with typed tools, context-aware state management, and continuous flow execution from discovery to order completion.
- **Engineered Observability & Telemetry Dashboards:** Designed Grafana operational dashboards and queried Elasticsearch production logs to analyze purchase failure metrics, pinpoint top cart-abandonment causes, and identify the primary triggers driving unnecessary live-agent handoffs.
- **Integrated Installation Services into AI Flow:** Implemented full-stack integration for professional installation services directly within the AI Purchase Agent, enabling customers to configure complex service options without leaving the conversational experience.
- **Instrumented Enterprise Web Analytics:** Integrated Adobe Analytics across conversational purchasing flows to capture granular user interactions, intent shifts, feature adoption, and funnel progression for data-driven product decisions.
- **Architected High-Impact Microfrontends:** Led Module Federation (Webpack) microfrontend initiatives across subscription (HomeCare+), address management (Fabric MFE), and checkout surfaces serving millions of daily users.
- **Optimized Conversion & Reduced Abandonment:** Delivered a **+22.2% conversion rate lift** and a **-76.6% reduction in cart abandonment** on subscription enrollment flows through microfrontend architecture and streamlined UX.
- **Cold-Start Performance Optimization:** Achieved a **~60% load time reduction** on critical checkout surfaces via bundle minimization, dynamic imports, and on-demand third-party SDK loading.
- **Consolidated Standalone Address Microfrontend:** Built and deployed a unified Address MFE with a BFF layer, replacing duplicated address UIs across checkout and customer account surfaces platform-wide.
- **Maintained High Uptime During Migration:** Maintained **99.9% uptime** during incremental monolith decomposition using the Strangler-Fig pattern, backed by GCP observability (Prometheus, GoAlert, Pharos) and Node.js/Joi validation layers.
- **Mentorship & Quality Standards:** Mentored 4+ engineers adopting microfrontend architectures and established comprehensive automated testing strategies (Jest, RTL, Playwright) achieving >85% test coverage.

## Anywhere Real Estate | Remote

Senior Frontend Engineer – SEO & Performance (Contract)

June 2025 – March 2026

- **Multi-Brand Platform Optimization:** Modernized four enterprise real estate platforms (Better Homes and Gardens Real Estate, ERA, Coldwell Banker, Century 21) using Next.js, React, and TypeScript.
- **Automated Core Web Vitals Auditing:** Built an automated Lighthouse API performance monitoring dashboard integrated into CI/CD pipelines to catch SEO and performance regressions prior to production release.
- **Structured Data & Schema Engineering:** Implemented structured data (JSON-LD), metadata standards, and content sub-navigation systems to improve search engine indexing and schema compliance across brand platforms.
- **Code Quality Remediation:** Refactored legacy frontend modules and resolved SonarQube technical debt to enforce strict architectural quality standards.

## Macy's Inc. | Hybrid

Senior Software Engineer

April 2022 – June 2022

- **Core Navigation Refactoring:** Led the migration of the global site header (~2M daily active users) from legacy Backbone/Marionette to Vue 3 and TypeScript, achieving 100% feature parity while cutting JavaScript bundle size by **35%**.
- **Accessibility (a11y) & Migration Strategy:** Built an accessible mega-navigation menu compliant with WCAG AA standards and authored an incremental migration bridge pattern adopted by 3 cross-functional engineering teams.

## Toyota Financial Services | Remote

Software Engineer

November 2021 – April 2022

- **Financial Tools & SSR Performance:** Built 15+ customer-facing financial tools (payment calculators, account portals) using React, Next.js, and Redux-Saga; met <2s page load targets (95th percentile) via Server-Side Rendering (SSR).

- **Design System Accessibility:** Created custom accessibility hooks ([useAriaLive](#), [useFocusTrap](#)) and enforced WCAG 2.1 AA standards across components, reducing accessibility bug reports by **90%**.

## PROJECT HIGHLIGHTS

---

- **Mylow AI Purchase Agent (Lowe's):** Conversational AI commerce engine handling context-aware discovery, service configuration, and checkout optimization.
- **Fabric Address Microfrontend (Lowe's):** Reusable address management platform built with Webpack Module Federation and BFF architecture.
- **Automated SEO & Vitals Dashboard (Anywhere Real Estate):** CI-integrated automated web vitals performance monitoring system.

## EDUCATION

---

- **Associate Degree in Business Administration** – ASA College of New York
- **B.Sc. Studies in Accounting & Finance** – Azerbaijan State University of Economics
